

Product Specification

Choice of single and double doors specifically for heritage projects.

Heritage Door

The Heritage door system is the ideal replacement for steel balcony doors on heritage applications such as building renovations or apartment conversions. Our Heritage door provides the solution for conservation areas where planning regulations require a like-for-like product replacement.

Heritage door profiles feature the system's signature slim sightlines and elegant lines that complement existing Heritage windows and mimic those of steel doors. The system has all the advantages of modern aluminium profiles that feature polyamide thermal breaks, allowing the system to achieve a U Value of 1.5 W/m²k when installed with a suitable sealed unit.

Application

- ◆ Single or double doors

Features

- ◆ Slim sightlines
- ◆ Tape or gasket glazed
- ◆ Multi point locking and face mounted shoot bolts

Technical Performance

U Value	1.5 W/m ² K (using sealed unit 1.0 w/m ² K)
Air	Test result pending
Water	Test result pending
Wind	Test result pending
Glass	24mm – 32mm
Typical Sightlines	59mm
Recommended Design Limits	
Max Sash Width	900mm
Max Sash Height	2100mm
