

# Walk on Glass

Design your walkway

*Would you like something different to the ordinary?*

Perfect Crystal Windows Ltd

## ILLUMINATING THE ROOM BELOW

Our walk-on glass are designed to be installed flush with external flooring, perfect for flat roof terraces, or when you want to bring light in to a basement, or any other enclosed area. If you're looking at walk-on glazing, our engineers will calculate the glass specification you need for the building type, size and purpose, so we can manufacture the relevant one. Glass floors or Walk-on Glass have a high visual impact and can also be used to create light in dark spaces. With its sleek appearance and excellent thermal qualities it combines good aesthetics with impressive technical ability.
