

Our story started in 2001 in London, when two brothers, window installers, opened their first small workshop to simply make better quality double glazed windows.

We evolved steadily year after year. Rich in experience and knowledge of 17+ years in the market, with around 70 employees and growing. Now in a much bigger warehouse, we manufacture windows and doors in aluminium, timber, uPVC, composite and offer a wide range of bespoke and architectural glazing for London and the surrounding counties.

Not sure which windows or doors might be a better fit for your renovation or home extension?

This brochure contains a selection of photographs from our projects to help you find your inspiration.

Happy browsing!

CASEMENT WINDOWS

bespoke to your requirements

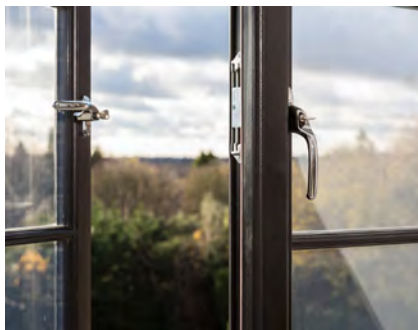

From traditional and striking timber through low-maintenance composite to slim lines of aluminium - you're in the right place when it comes to finding the perfectly matched or replacement windows.

Our casement windows are available with top or side openers and dummy sashes to ensure you'll end up with not only striking new windows, but also a practical design that works for your requirements.

Every window that leaves our factory is completely bespoke and precisely tailored to your exact sizes, configuration, colour and hardware.

We're very happy with all our windows and doors and we would definitely recommend PCW to others. In hindsight we're really happy we've decided to get all the glazing from one company.

5

TILT & TURN WINDOWS

convenience & style

Tilt and Turn windows combine the benefits of casement windows with convenient tilt inwards operation to allow ventilation into a room. At Perfect Crystal Windows we offer a wide variety of tilt and turn options in aluminium, timber and uPVC.

Some of our systems offer architectural minimalism in design by integrating all the window hardware into the neat design of the frame.

The handle is integrated within the sash to the point that it's barely noticeable when you look at the window. This first invisible opening system in the market is now available to our homeowners.

SLIDING SASH WINDOWS

9

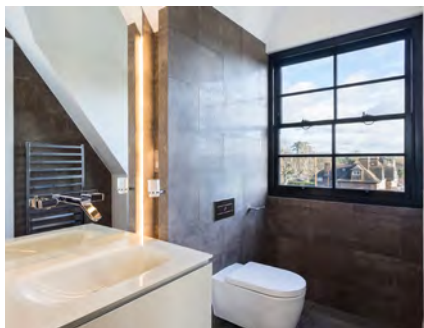

traditional beauty, modern touch

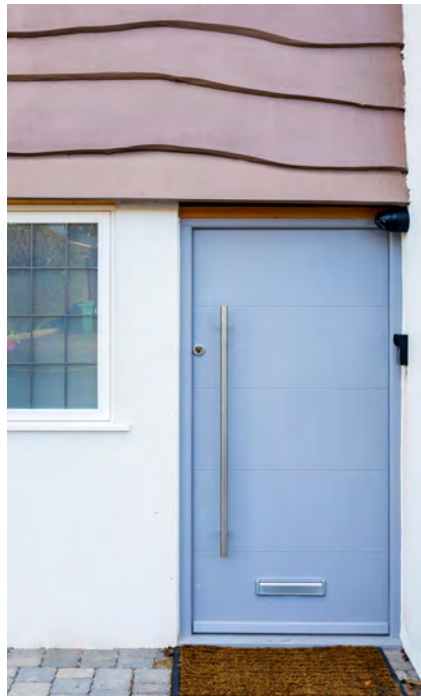

A kerb appeal of those windows is undeniable!
Beautiful design of modern day sash windows combines the benefits of uniquely Victorian aesthetics with benefits of high-performance engineering, so you can sit back and relax.

Whether you're embarking on a new build project or simply replacing your old tired windows, you can rely on our vertical sliding sash to add a timeless style, warmth and exceptional performance to your home for years to come.

Ideal for upgrading traditional homes, can also perfectly complement modern properties.

With decorative Georgian bar designs, a large selection of RAL colours, hardware, and decorative options, you can turn your windows into a truly outstanding feature of your home.

ENTRANCE DOORS

11

create lasting impressions

Choosing the right exterior doors is like putting a cherry on top of a cake!

This final touch can create a great first impression of your property. The right choice not only provides you with high security, thermal efficiency and great weatherproof performance, but also adds value and kerb appeal to your home. At PCW we take a design-led approach to ensure that our entrance doors meet your every expectation in quality, appearance and security.

Our large range of exterior doors in timber, composite, uPVC and aluminium comes with a selection of door panel designs and colours (single and dual colour options), with/or without glass panels and sidelights, to enable you to create a design that will be unique to you and will complement your home.

All our front doors can also be matched with your windows and other doors for a complete look.

SINGLE & FRENCH DOORS

traditional touch

Add a traditional touch to your patio area with a set of French or single doors.

Not all properties require wide expanses of opening doors. Some just need a simple yet effective door, giving easy access to the garden or outside.

Manufactured to open either inwards or outwards, whichever option is better suited to your space, they are also hinged to open a full 180 degrees, truly bringing the outside in.

Our doors are completely custom-made, and available in a wide range of colours, sizes and finishes in aluminium, timber, uPVC.

12

Do you live in a listed building with beautiful, yet old steel windows?

PCW also offers a slim, steel-looking and energy efficient Heritage range of double and single doors and windows.

This system has been specially developed to meet the requirements of refurbishment and renewal projects, particularly in sensitive planning areas, listed buildings, Art Deco & Victorian properties.

BI-FOLDS

bring the outdoors in

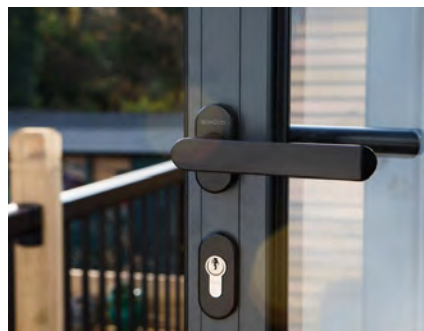

Blur the lines between the outside and your living room and give your space a real wow-factor!

With our choice of bi-folding doors you can extend your living room to create a modern, inviting space where you can entertain your family and friends.

Each of our bi-folding systems offer a multitude of configurations, everyday traffic door options, flush threshold options and effortless gliding operation.

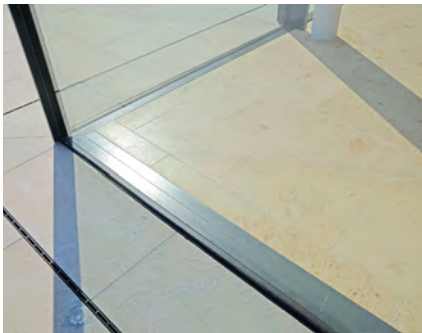

Whichever one of our systems you choose, they're all fitted with durable hardware, secure locking mechanisms and a wide range of RAL colours to suit your home and needs.

15

SLIM SLIDING DOORS

upgrade your open plan living

If you're looking to seamlessly merge your outdoors with indoors and your desire is simply maximum glass-minimum frames, these stunning floor-to-ceiling panoramic sliding doors are the perfect fit for your extension.

Clever designs embrace architectural minimalist lines without compromising on thermal performance or safety features.

You could easily replace your entire wall or even a corner with these magnificent doors creating striking panoramic garden views from your living room!

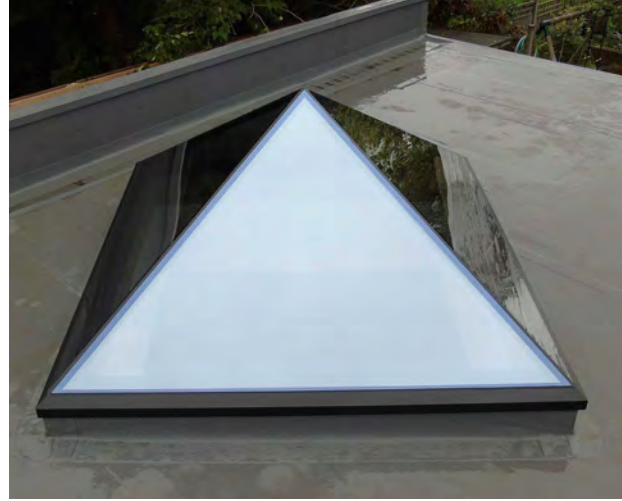

With plenty of design options allowing for smooth threshold, opening an entire corner or sliding door panels into the wall (providing you have enough wall to do it) and even more than 3m height you can make this design truly yours and unique.

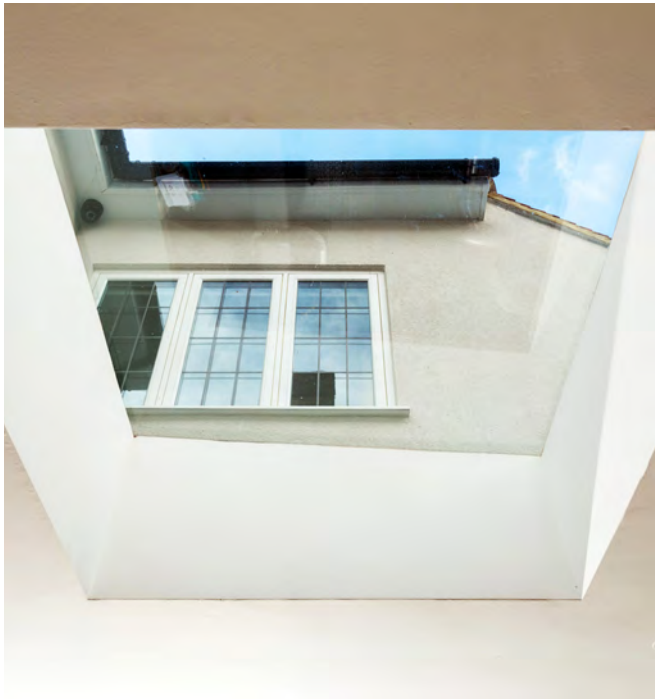

PCW delivered and fitted on time and coordinated well with the various other contractors involved with our build. We are very proud of our windows. Their products are outstanding and the sliding aluminium doors in particular are the best feature of the house. I would have no hesitation recommending PCW to anyone.

SKYLIGHTS:

FLAT SKYLIGHTS & PYRAMIDS

23

let the sunshine in

Brighten up your living spaces by introducing more natural light from above.

With open-plan kitchen-living areas being increasingly popular as the focal and spacious zone for the occupants to spend time together, careful consideration is needed to ensure they're well illuminated with natural light. Adding a vast overhead glazing to your single-storey extension can provide just that.

Our selection of glazed roofs ranges from stylish, flush and frameless modern flat skylights and frameless pyramids, through pitched lanterns to lean-to glass roof structures. Whatever your requirements we can provide you with innovative solutions to suit your project

GLASS ROOFS & CONSERVATORIES

illuminate your interiors

PCW are leading the way in rooflight, lantern and orangery design, giving you the ultimate and unrivalled views from your home and extension with supreme aerial views.

This combined with the industry-leading thermal performance ensures you can use your conservatory/orangery/extension 365 days a year.

The glass features a high tech easy clean external coating to promote self-cleaning with rain fall helping to reduce maintenance and protect the glass from discolouration.

Our experienced team manufactures rooflights and skylights to a huge number of shapes and sizes, and we're confident that we can provide you with a solution that meets your exact requirements.

HERITAGE STYLE

Heritage windows and doors systems: an ideal glazing system for listed, Art Deco & Victorian buildings. This range had been especially developed to meet the requirements of refurbishment and renewal projects, particularly in sensitive planning areas.

Signature slim profiles and sightlines of those windows, usually associated with traditional steel doors and windows, are ideal for listed building renovations.

Heritage style , Crittall look ...

Providing a modern, like-for-like replacement for traditional materials, Heritage offers the ideal solution for projects where planning or design demands dictate the installation of sympathetic materials - even for listed buildings.

Timeless elegance is also accompanied by the outstanding thermal performance of a modern aluminium system .

27

COMMERCIAL GLAZING

From windows of impressive sizes, bespoke design to a comprehensive range of curtain walling options and shop-front systems - we also manufacture a wide range of commercial glazing systems.

“

I had worked with PCW on multiple projects before, and I know I can always trust their expertise and professional advice. I would definitely recommend them (and have been!) to everyone searching for a good glazing company in London.

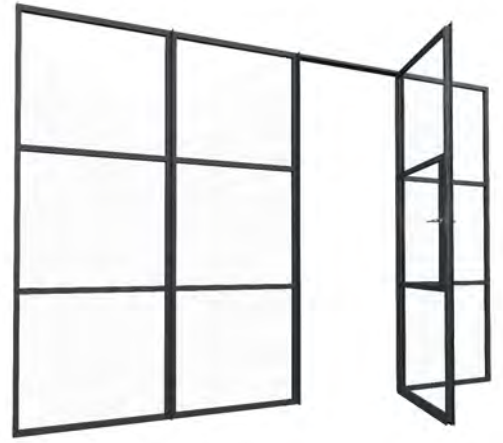

INTERNAL GLAZING - Aluspace

30

AluSpace Interior Door and Screening System has been developed to create light and airy internal environments. The system's sleek and elegant lines perfectly complement our window and door ranges.

AluSpace gives architects and interior designers the opportunity to create space and light in any internal environment. With a huge range of colour and design options, and just a small number of core components, the system can be used to elegantly partition living or working space of any size or shape.

31

PCW SHOWROOM

bespoke, end-to-end service

At Perfect Crystal Windows we specialise in an end-to-end service - from in-house manufacturing through to installation, so you can take full advantage of our quality products, bespoke service and extended warranties.

32
